## XXL-Rehab Shower Commode

### XXL-Rehab Shower Commode

- Strong, lightweight design – easy to manoeuvre in confined spaces.
- White power coated, stainless steel frame, for maximum corrosion resistance in wet areas.
- Comfortable PU foam covered back support.
- Bariatric capable – safe working load (SWL) of 325 kg and 86 cm wide between butterfly armrests.
- PU foam split seat cushion for improved patient comfort, as well as lots of accessibility for intimate hygiene tasks. Very easy to remove and clean.
- Maximum toilet bowl height of 44.5 cm (extra 2.5 cm clearance available by fitting 150 mm castors).
- Removable, PU foam covered foot supports. Designed to support 100 kg each. Can be adjusted for both height and lateral positioning to cater for patients with significant inner leg fatty tissue deposits.
- Removable butterfly armrests are covered with PU foam cushioning for patient comfort.
- Supplied with sanitary bucket and lid.

#### Optional Accessories:

- Standard armrests
- 150 mm castors
- Bench seat cushion (single piece PU foam)
- Calf supports
